STUDENT-ATHLETE HIGH PERFORMANCE CENTER

-  Construction is well underway for the 142,000-square-foot facility that is scheduled to open prior to the 2011 home football season, providing locker rooms, meeting rooms, offices and much more for football and 12 other sports.
-  The SAHPC will house a state-of-the-art training and applied sports science areas for strength and conditioning, sports medicine, nutrition and academics.
-  The building is the physical manifestation of Cal's High Performance Initiative, an untraditional approach to excellence that challenges conventional ways of thinking about and delivering high performance in an intercollegiate setting.

MEMORIAL STADIUM RETROFIT AND RENOVATION

-  Built in 1923, Memorial Stadium has generated scores of unforgettable moments for generations of Golden Bears. At the time of its opening, Robert Gordon Sproul, who became UC president in 1930, said that the stadium "stands in simple dignity, beauty and strength."
-  The renovation of the stadium will preserve the historic character of the structure while bringing it up to world-class standards – with respect to student-athlete needs, fan amenities and safety – in keeping with the university's tradition.
-  Construction on the \$321 million project began in June of 2010 and is expected to be completed in time for the 2012 season opener. After playing in the current configuration of Memorial Stadium one last time of 2010, Cal will play at AT&T Park.
